## PROFESSIONAL EXPERIENCE

**Chevening FCDO** – Scholar, *Cybersecurity and Forensics MSc – University of Westminster;*                 *September 2022 – Present*
- ③ I was awarded the prestigious Chevening Awards (Chevening Scholarship) by the Foreign, Commonwealth & Development Office to study Cybersecurity and Forensics, MSc at the University of Westminster, London.
- ③ Chevening is the U.K. Government's global scholarship programme offering awards to outstanding future leaders worldwide to undertake fully funded postgraduate studies in the U.K. Selected amongst the 2% selected out of over 60,000 applicants worldwide.

**Local Youth Corner** – *Information Security Engineer;* Yaounde, Cameroon                 *August 2021 – Present*
- ③ I designed and developed the Local Youth Corner Organization website, managing content and ensuring the site is up and running.
- ③ I design and implement highly secure systems and digital platforms, protecting their data and information and securing them against potential cyber-attacks and hacking threats.
- ③ Monitoring and ensuring the organization's website and emails are securely running and safe from cyber attacks and security threats.

**Leading Edge Technologies** – *Computer Networks Enginere Internr;* Cameroon                 *August 2018 – October 2018*
- ③ Network infrastructure design, setup, maintenance, and security. Hardware Maintenance, and Installation. Diagnosis of faulty laptops brought by clients, installations of new operating systems, and installation of all programs, drivers. Repair of faulty computer accessories and components, printers, monitors, scanners. Installations of security surveillance systems of clients at shops, homes, and maintenance.

**Cameroon GCE Guide App** – *Lead App Developer;* Cameroon                 *April 2018 – September 2022*
- ③ In April 2018, I Created/Developed the Cameroon GCE Guide App using native Android with Java Programming language. An innovative platform to provide students preparing for their GCE examinations across Cameroon with a study tool and portal to find exam resources and past questions so they can adequately prepare for their examinations.

**Zebra Comics –** *App Developer;* Cameroon                 *December 2017 – December 2018*
- ③ I designed and developed the first-ever version of the Zebra Comics mobile app and hosting on the Google play store.
- ③ I ensured to fix bugs and updates on the app.

## LEADERSHIP EXPERIENCE

**Andela  –** *Android Developer Mentor*                 *June 2022 – Present*
- ③ I take part in mentoring young learners and Android developers learners in the Google Africa Scholarship Programme 2022 Edition across Africa and the world.
- ③ The Google Africa Developer Scholarship program has sponsored 30,000 aspiring developers in Africa to skill up with Pluralsight Skills, supported by the Andela Learning Community. I work with assigned learners to guiding them and mentoring them during their studies and learning process.

**Open Dreams –** *Project Team Member/Facilitator*                 *October 2021 – September 2022*
- ③ I facilitated sessions for the "Training of Teachers on Instructional Technology Programme" by Open Dreams, sponsored by the U.S Embassy Yaounde, held in cities across Cameroon, Yaounde, Buea, and Bamenda.
- ③ Training secondary and high school teachers on Instructional Technologies and how they can use technology to better the way they teach and in their teaching practices.
